- best TA ever. you should think of becoming a professor because you're really good at teaching and making everything so clear
- cute. also a good explainer. discussion was more helpful than lecture for me. review sessions much appreciated.
- Great TA~
- He first reviews the material that the homework for the week covers, then goes into specific example problems that we have, which is extremely helpful.
- He has GREAT hair. Long, beautiful, and radiant hair
- He is very helpful and explains material in a way that is easy to understand. Great TA!
- His review sessions were very helpful!!
- I attended the review sessions and they were very helpful. I preferred this guy over my TA. Genuinely seemed to care about students.
- Jay explained the course material really well, and I often felt I learned the material better in section than I did in lecture.
- Jay is a marvelous TA
- Jay is one of the best TA's I've ever had! His midterm review sessions were also very helpful!
- Jay is really cute, and is very proficient in calculus--at least for this course! He was very helpful at the review session, and any OH when I had questions. Fantastic personality!
- Jay is the best TA in MATH 10C!
I always recommend my classmates who need help to his review session because I feel like it's helpful (based on my experience in sections) although I've never attended any (MATH 10C is too easy though). Jay's section is so interesting and helpful:) He's always willing to help us if we have questions. Although he usually makes calculation mistakes hahahahaha (not a big deal though). GREAT TA! Thank you:)
- Jay was a fantastic TA. He was easily the best math TA I have had so far, and perhaps even the best one I've had in all subjects. He was very knowledgeable and his good humor made a boring subject enjoyable.
- Jay was a great TA and he really explained concepts well!
- Jay was really entertaining and personable. I never really spoke to him besides asking questions during discussion, but he's laid back and cool about things. He's also very clear in his lessons and problem solving, and he was able to address issues we had in understanding class material. Would definitely recommend him as a TA again.
- Review sessions were very helpful and much appreciated.
- The way he teaches is really concise, clear, and thorough. All students participated really well. I felt he was the best math 10c TA among all other TAs.
- Very good teaching assistant. Was very helpful.

- Very helpful
