9. Do you have any other comments to add to your evaluation?

Please keep your comments constructive and professional, abiding by the Principles of Community

- He was honestly the best TA I've ever had. He answered all questions and was always kind about it.
- Jay helped us all by working through problems with us so we actually knew how to problem solve instead of just solving it for us. The discussion worked together to problem solve a difficult problem which I really enjoyed. Overall best TA I have had for a math class
- Jay is extremely knowledgeable and helps all of the students to the best of his ability. He is an amazing teacher that is super clear and is happy to go over a problem again and again until the student understands it.
- Thanks Jay :)
- The best T.A. I've ever had the pleasure of learning from. He not only cares about his student's performance in the class, but he also cares about how he teaches those students. The way he instructs already surpasses the majority of professors I've had and his future students are lucky to have him as a T.A and instructor.
