Please keep your comments constructive and professional, abiding by the Principles of Community

- He was very approachable yet challenged students to try the problems for themselves and create their own answers since there are multiple ways to solve the problems. He made discussions enjoyable and engaging and they definitely helped with the content of the course.
- It's been forever since I've taken Geometry, but TA Bonthius made it possible. Whenever we worked on a problem, he would ask us what we see. We worked through each one as a section rather than him giving us the answer. Actively interacting with the material is one of the best ways to learn how to solve other problems on our own. If we were ever stuck, he would ask if we wanted to move on to the next problem or continue with the one at hand, not denying other students the chance to ask questions. I highly recommend him to TA for this course again.
- Such a great TA!
