- Jay is a great TA. He has such high energy and answers each question thoroughly and with enthusiasm. He does not give the answers, but rather has us participate in DI to help solve the problem. He is both helpful during discussion and in office hours. He is very approachable and always encourages questions and input. He will not abandon the question until you tell him you understand!
- Jay is a phenomenal TA, super valuable addition to the Math department at UCSD.
- Jay was great. Answered conceptual questions very well and was able to lead us onto the right path for homework questions.
